

MONTHLY PROGRAM NARRATIVE—Suffolk County
Testing as Prevention (TAP Program)

Report Month/Year: ___May 2024___ Date submitted: ___06/04/2024___

1. Please share one or two major accomplishments and/or challenges that the Testing as Prevention program experienced this month.

The Testing as Prevention program found a little difficult to reach people this month, yet still trying to provide HIV education and talk about removing the HIV stigma .

2. Did the program reach its projected number of HIV tests this month? ___Yes ___X___ No

Projected Number of HIV tests for the Month 20
Actual Number of HIV tests for the Month 6

If no, please outline the program's plan to increase HIV test numbers.

Have a better promotion of events with the contacts in the locations where events are scheduled. And definitely have more events per month when colleges are out for the summer.

3. Please describe the method(s) used this month to promote the program in the community (i.e. flyers included in mailings, email/internet promotions, conferences/health fairs, calls to organizations – etc.)

Information was given to the locations where we were scheduled to provide tabling.
